SENSIENT TECHNOLOGIES CORPORATION  
NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS  
(Unaudited)

1. Accounting Policies

In the opinion of Sensient Technologies Corporation (the “Company”), the accompanying unaudited consolidated condensed financial statements contain all adjustments (consisting of only normal recurring adjustments) that are necessary to present fairly the financial position of the Company as of March 31, 2018, and the results of operations, comprehensive income, and cash flows for the three months ended March 31, 2018 and 2017. The results of operations for any interim period are not necessarily indicative of the results to be expected for the full year.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. Expenses are charged to operations in the period incurred.

Please refer to the notes in the Company’s annual consolidated financial statements for the year ended December 31, 2017, for additional details of the Company’s financial condition and a description of the Company’s accounting policies, which have been continued without change except for the Company’s Revenue Recognition accounting policy, which has been updated as a result of the Company’s adoption in the current quarter of Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers*, as noted below.

*Revenue Recognition*

The Company recognizes revenue as the transfer of control of its products to the Company’s customers in an amount reflecting the consideration the Company expects to be entitled. In order to achieve this core principle, the Company applies the following five-step approach:

- Identification of the contract, or contracts, with a customer
- Identification of the performance obligations in the contract
- Determination of the transaction price
- Allocation of the transaction price to the performance obligations in the contract
- Recognition of revenue when, or as, we satisfy the performance obligations

The Company considers customer purchase orders, which in some cases are governed by master sales agreements, to be the contracts with the customer. For each contract, the Company considers the promise to transfer products, each of which are distinct, to be the identified performance obligations. In determining the transaction price, the Company evaluates whether the price is subject to refund or adjustment to determine the net consideration to which the Company expects to be entitled. In addition, the Company evaluates the customer’s ability to pay as part of its consideration of the contract. As the Company’s standard payment terms are less than one year, the Company elected the practical expedient under Accounting Standards Codification (ASC) 606-10-32-18, and determined that its contracts do not have a significant financing component. The Company allocates the transaction price to each distinct product based on the relative standalone selling price. Revenue is recognized when control of the product is transferred to the customer, the customer is obligated to pay the Company, and the Company has no remaining obligations, which is typically at shipment. In certain locations, primarily outside the United States, product shipping terms may vary. Thus, in such locations, the point at which control of the product transfers to the customer and revenue recognition occurs will vary accordingly.

Customer returns of non-conforming products are estimated at the time revenue is recognized. In certain customer relationships, volume rebates exist, which are recognized according to the terms and conditions of the contractual relationship. Customer returns, rebates, and discounts are not material to the Company’s consolidated financial statements. The Company has elected to recognize the revenue and cost for freight and shipping when control over the products has transferred to the customer. The Company has elected to immediately expense contract costs from obtaining a contract as the amortization period of the asset the Company otherwise would have recognized would have been less than a year.

[Index](#)

The Company disaggregates its revenue with customers by certain product lines and geographic locations for the Flavors & Fragrances and Color segments. Revenue for the Asia Pacific segment is managed on a geographic basis. For more information on the Company's disaggregated revenue, see Note 4, *Segment Information*.

*New Pronouncements*

In May 2014, the Financial Accounting Standards Board (FASB) issued, ASU No. 2014-09, *Revenue from Contracts with Customers*. Under this new standard, revenue is recognized when a customer obtains control of promised goods or services in an amount that reflects the consideration the entity expects to receive in exchange for those goods or services. The requirements of the new standard are effective for interim and annual periods beginning after December 15, 2017. The Company adopted this new standard in the current quarter using the modified retrospective method. The adoption of this new standard did not have an impact on the revenue recognized by the Company. The Company has updated its revenue recognition accounting policy, as outlined above, and has included a disclosure on its disaggregated revenue in Note 4, *Segment Information*, and has included discussion of its disaggregated revenue under *Segment Information*, in its *Management's Discussion and Analysis of Financial Condition and Results of Operations*.

In February 2016, the FASB issued ASU No. 2016-02, *Leases*, which requires lessees to recognize the lease assets and lease liabilities that arise from leases on the balance sheet and to disclose qualitative and quantitative information about lease transactions. This guidance is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. The Company created a project team within its Corporate Finance Department to review the impact that this ASU will have on the Company. The project team has begun gathering data and reviewing existing leases and other relevant documents across all of the Company's segments. The Company has also purchased and begun the installation of a software solution to facilitate the implementation of this new standard. The Company will continue to evaluate the expected impact of this standard.

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payment*. This ASU clarifies how certain cash receipts and cash payments are presented and classified in the statement of cash flows. Among these changes, is a requirement that a transferor's receipt of a beneficial interest in securitized trade receivables be disclosed as an investing transaction. There is also a requirement to classify cash receipts received that are related to beneficial interests in previously transferred receivables (i.e., deferred purchase price) as inflows from investing activities. The guidance is effective for fiscal years beginning after December 15, 2017, including interim periods within those years. The Company adopted this standard in the current quarter and included \$9.1 million as an adjustment to net cash provided by investing activities. The Company has also reclassified the first quarter of 2017 to include \$6.4 million collected on sold receivables in cash provided by investing activities rather than cash provided by operating activities as previously reported.

In December 2016, the FASB issued ASU 2016-16, *Accounting for Income Taxes: Intra-Entity Asset Transfers of Assets Other than Inventory*. Prior to the adoption of ASU 2016-16, the tax effects of intra-entity asset transfers are deferred until the transferred asset is sold to a third party or otherwise recovered through use. ASU 2016-16 eliminates the exception for all intra-entity sales of assets other than inventory. The guidance is effective for fiscal years beginning after December 15, 2017, including interim periods within those years. The Company adopted this standard in the current quarter resulting in a cumulative effect of \$0.4 million increase to *Earnings reinvested in the business*; an increase of \$3.0 million to *Deferred Tax Assets*; a decrease of \$3.7 million to *Prepaid Expense and Other Current Assets*; and a decrease of \$1.1 million to *Deferred Tax Liabilities* on the Company's Consolidated Balance Sheet.

In March 2017, the FASB issued ASU No. 2017-07, *Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*. This ASU requires employers to present the service cost component of the net periodic benefit cost in the same income statement line item as the other employee compensation costs arising from services rendered during the period. The other components of net benefit cost are to be presented outside of any subtotal of operating income. This ASU is effective for fiscal years and interim periods beginning after December 15, 2017, and early adoption is permitted. The Company adopted this standard in the current quarter, and as a result, the Company's non-service cost portion of its pension expense is now recorded in *Interest Expense* on the Company's Condensed Statement of Earnings. The Company's service cost portion of pension expense is recorded in *Selling and Administrative Expenses* on the Company's Consolidated Statement of Earnings. This change did not have a material impact on the Company's consolidated financial statements.

In August 2017, the FASB issued ASU No. 2017-12, *Targeted Improvements to Accounting for Hedging Activities*, which expands an entity's ability to hedge non-financial and financial risk components and reduce complexity in fair value hedges of interest rate risk. This guidance eliminates the requirement to separately measure and report hedge ineffectiveness and generally requires the entire change in the fair value of a hedging instrument to be presented in the same income statement line item as the hedged item. This ASU is effective for fiscal years and interim periods beginning after December 15, 2018. The Company is currently evaluating the expected impact of this standard.

2. Acquisition

On March 9, 2018, the Company completed the acquisition of certain net assets and the natural color business of *GlobeNatural*, a natural food and ingredient company based in Lima, Peru. The Company paid \$10.5 million of cash for this acquisition. *GlobeNatural* operations are included in the Color segment. The assets acquired and liabilities assumed were recorded at their estimated fair values as of the acquisition date. The purchase price exceeded the carrying value of the net assets by approximately \$8.4 million. The excess was allocated to intangible assets, principally goodwill. The Company is in the process of quantifying the identifiable intangible assets and anticipates completing this analysis in the third quarter of 2018. During the current quarter, the Company also purchased the assets of a business for an immaterial amount, which is included in the Flavors & Fragrances segment.

3. Fair Value

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, defines fair value for financial assets and liabilities, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements. As of March 31, 2018, and December 31, 2017, the Company's assets and liabilities subject to this standard are forward exchange contracts and investments in a money market fund and municipal investments. The fair value of the forward exchange contracts based on current pricing obtained for comparable derivative products (Level 2 inputs) was an asset of \$0.1 million as of March 31, 2018, and a liability of \$0.6 million as of December 31, 2017. The fair value of the investments based on March 31, 2018, and December 31, 2017, market quotes (Level 1 inputs) was an asset of \$0.1 million in both periods and is reported in *Other Assets* in the Consolidated Condensed Balance Sheets.

The carrying values of the Company's cash and cash equivalents, trade accounts receivable, accounts payable, accrued expenses, and short-term borrowings approximated fair values as of March 31, 2018. The fair value of the Company's long-term debt, including current maturities, is estimated using discounted cash flows based on the Company's current incremental borrowing rates for similar types of borrowing arrangements (Level 2 inputs). The carrying value of the long-term debt at March 31, 2018, was \$691.3 million. The fair value of the long-term debt at March 31, 2018, was \$701.9 million.

4. Segment Information

The Company evaluates performance based on operating income of the respective segments before restructuring and other costs, interest expense, and income taxes. The 2017 restructuring and other costs are reported in Corporate & Other. The 2017 other costs pertain to the costs associated with the Company's divestiture of a facility and certain related business lines within the Flavors & Fragrances business in Strasbourg, France. There were no restructuring and other costs in the current quarter.

In addition to evaluating the Company's performance based on the segments above, revenue is also disaggregated and analyzed by product line and geographic market. The following table displays our revenue by these major sources.

As noted in Note 1, *Accounting Policies*, the Company adopted ASU No. 2017-07, *Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*, in the first quarter of 2018. As a result of the adoption of this ASU, the non-service cost portion of the Company's annual benefit costs summarized above is recorded in *Interest Expense* in the Company's Condensed Statement of Earnings. The service cost portion of the Company's annual benefit costs is recorded in *Selling and Administrative Expenses* on the Company's Condensed Statement of Earnings.

7. Shareholders' Equity

The Company repurchased 1 million shares of its common stock for an aggregate cost of \$72.7 million during the three months ended March 31, 2018, and 155,849 shares of its common stock for an aggregate cost of \$12.4 million during the three months ended March 31, 2017. The amount of treasury stock purchases reported in the Company's Consolidated Condensed Statements of Cash Flow represent purchases that have settled within each respective three-month period.

## 8. Derivative Instruments and Hedging Activity

The Company may use forward exchange contracts and foreign currency denominated debt to manage its exposure to foreign exchange risk by reducing the effect of fluctuating foreign currencies on short-term foreign currency denominated intercompany transactions, non-functional currency raw material purchases, non-functional currency sales, and other known foreign currency exposures. These forward exchange contracts generally have maturities of less than 18 months. The Company's primary hedging activities and their accounting treatment are summarized below:

*Forward exchange contracts* – Certain forward exchange contracts have been designated as cash flow hedges. The Company had \$31.2 million and \$44.9 million of forward exchange contracts, designated as hedges, outstanding as of March 31, 2018, and December 31, 2017, respectively. For the three months ended March 31, 2018 and 2017, the losses reclassified into net earnings in the Company's Consolidated Statement of Earnings that offset the earnings impact of the related non-functional asset or liability hedged in the same period were not material. In addition, the Company utilizes forward exchange contracts that are not designated as cash flow hedges, the results of these transactions are not material to the financial statements.

*Net investment hedges* – The Company has certain debt denominated in Euros and Swiss Francs. These debt instruments have been designated as partial hedges of the Company's Euro and Swiss Franc net asset positions. Changes in the fair value of this debt attributable to changes in the spot foreign exchange rate are recorded in foreign currency translation in other comprehensive income ("OCI"). As of March 31, 2018, and December 31, 2017, the total value of the Company's Euro and Swiss Franc debt was \$268.8 million and \$261.9 million, respectively. For the three months ended March 31, 2018, the impact of foreign exchange rates on these debt instruments increased debt by \$6.9 million, which has been recorded as foreign currency translation in OCI.

## 9. Income Taxes

The effective income tax rates for continuing operations for the quarters ended March 31, 2018 and 2017, were 23.8% and 31.4%, respectively. The effective tax rates in both 2018 and 2017 were impacted by changes in estimates associated with the finalization of prior year foreign and domestic tax items, audit settlements, adjustments to valuation allowances, and mix of foreign earnings. The 2018 tax rate was also impacted by the 2017 Tax Cuts and Jobs Act which is commonly referred to as "2017 Tax Legislation" and the tax rate in 2017 was also impacted by the restructuring activities, the limited tax deductibility of losses related to the Company's restructuring activities, and the now completed sale of a facility and certain related business lines within the Flavors & Fragrances segment in Strasbourg, France.

Staff Accounting Bulletin No. 118 ("SAB 118") was issued to address the application of U.S. GAAP in situations when a registrant does not have the necessary information available, prepared, or analyzed (including computations) in reasonable detail to complete the accounting for certain income tax effects of the 2017 Tax Legislation. The Company is applying SAB 118, and believes the impact of the 2017 Tax Legislation on the 2018 and 2017 income tax expenses should be considered provisional estimates. The ultimate impact could differ from these provisional amounts, possibly materially, due to, additional guidance, changes in interpretation, and additional analysis and assumptions the Company has made. Any adjustments to the 2018 and 2017 provisional estimates will be reported in income tax expense in the reporting period in which any such adjustments are determined, which will be no later than the fourth quarter of 2018.

## 10. Accumulated Other Comprehensive Income

The following table summarizes the changes in OCI during the three-month period ended March 31, 2018:

(In thousands)	Cash Flow Hedges (a)	Pension Items (a)	Foreign Currency Items	Total
Balance as of December 31, 2017	\$ (669)	\$ (309)	\$ (148,356)	\$ (149,334)
Other comprehensive income before reclassifications	670	-	23,186	23,856
Amounts reclassified from OCI	38	(30)	-	8
Balance as of March 31, 2018	<u>\$ 39</u>	<u>\$ (339)</u>	<u>\$ (125,170)</u>	<u>\$ (125,470)</u>

(a) Cash Flow Hedges and Pension Items are net of tax.

## 11. Accounts Receivable Securitization

The Company is engaged in an accounts receivable securitization program with a commitment size of \$60 million, whereby transactions under the program are accounted for as sales of trade receivables in accordance with ASC Topic 860, *Transfers and Servicing*. Sales of trade receivables under the program are recorded as a reduction of accounts receivable in the Consolidated Balance Sheet. The fair value of the receivables sold equals the carrying cost at the time of sale and no gain or loss has been recorded as a result of the sales. The sales also resulted in the recording of a deferred purchase price amount, which represents the retained interest in the sold receivables. This amount is adjusted each month based on collections and other activity. The Company estimates the fair value of the deferred purchase price receivable based on historical performance of similar receivables, including an allowance for doubtful accounts, as well as estimated cash discounts to be taken by customers and potential credits issued to customers. The Company deems the interest rate risk related to the deferred purchase price receivable to be de minimis primarily due to the short average collection cycle of the related receivables.

As of March 31, 2018 and 2017, the net trade receivables sold totaled \$99.2 million and \$56.6 million, respectively, and the fair value of the deferred purchase price receivable was \$39.2 million and \$16.6 million as of March 31, 2018 and 2017, respectively, which are recorded in *Trade Accounts Receivable* in the Company's Consolidated Balance Sheets.

## 12. Restructuring

Between March 2014 and 2017, the Company executed a restructuring plan to eliminate underperforming operations, consolidate manufacturing facilities, and improve efficiencies within the Company. The Company recorded \$20.2 million of restructuring costs in Corporate & Other for the three months ended March 31, 2017. There were no restructuring and other costs incurred in the three months ended March 31, 2018.

## 13. Divestiture

In the first quarter of 2017, the Company completed the sale of a facility and certain business lines in Strasbourg, France, for \$12.5 million. The Company recognized a non-cash loss of approximately \$11.0 million in Corporate & Other during the three months ended March 31, 2017.

## 14. Commitments and Contingencies

The Company is subject to various claims and litigation arising in the normal course of business. The Company establishes reserves for claims and proceedings when it is probable that liabilities exist and reasonable estimates of loss can be made. While it is not possible to predict the outcome of these matters, based on our assessment of the facts and circumstances now known, we do not believe that these matters, individually or in the aggregate, will have a material adverse effect on our financial position. However, actual outcomes may be different from those expected and could have a material effect on our results of operations or cash flows in a particular period.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### OVERVIEW

#### *Revenue*

Revenue was \$356.5 million and \$341.4 million for the three months ended March 31, 2018 and 2017, respectively, an increase of 4.4%. The impact of foreign exchange rates increased consolidated revenue by approximately 5% for the three months ended March 31, 2018.

#### *Gross Profit*

The Company's gross margin was 34.5% and 35.4% for the three months ended March 31, 2018 and 2017, respectively. Included in cost of sales is \$0.3 million of restructuring costs for the three months ended March 31, 2017. The decrease in gross margin for the three months ended March 31, 2018, is primarily a result of higher raw material, manufacturing, and other costs. Restructuring costs reduced gross margin by 10 basis points during the three months ended March 31, 2017.

#### *Selling and Administrative Expense*

Selling and administrative expenses as a percent of revenue were 18.9% and 28.4% for the three months ended March 31, 2018 and 2017, respectively. Restructuring and other costs of \$30.9 million were included in selling and administrative expenses for the three months ended March 31, 2017. The decrease in selling and administrative expenses as a percent of revenue is primarily due to the restructuring and other costs incurred in 2017. In 2018, there were no restructuring and other costs. Restructuring and other costs increased selling and administrative expense as a percent of revenue by 910 basis points for the three months ended March 31, 2017.

#### *Operating Income*

Operating income was \$55.7 million and \$24.0 million for the three months ended March 31, 2018 and 2017, respectively. Operating margins were 15.6% and 7.0% for the three months ended March 31, 2018 and 2017, respectively. Restructuring and other costs reduced operating margins by 920 basis points during the three months ended March 31, 2017.

#### *Interest Expense*

Interest expense was \$5.6 million and \$4.8 million for the three months ended March 31, 2018 and 2017, respectively. The increase in interest expense is a result of the Company's higher average debt balance and higher interest rates.

#### *Income Taxes*

The effective income tax rates for the quarters ended March 31, 2018 and 2017, were 23.8% and 31.4%, respectively. The effective tax rates in both 2018 and 2017 were impacted by changes in estimates associated with the finalization of prior year foreign and domestic tax items, audit settlements, adjustments to valuation allowances, and mix of foreign earnings. The 2018 tax rate was also impacted by the 2017 Tax Legislation. The tax rate in 2017 was also impacted by restructuring activities, the limited tax deductibility of losses related to the Company's restructuring activities, and the now completed sale of a facility and certain related business lines within the Flavors & Fragrances segment in Strasbourg, France. The Company expects its 2018 effective income tax rate to be between 22% and 25%.

Staff Accounting Bulletin No. 118 ("SAB 118") was issued to address the application of U.S. GAAP in situations when a registrant does not have the necessary information available, prepared, or analyzed (including computations) in reasonable detail to complete the accounting for certain income tax effects of the 2017 Tax Legislation. The Company is applying SAB 118, and believes the impact of the 2017 Tax Legislation on the 2018 and 2017 income tax expenses should be considered provisional estimates. The ultimate impact could differ from these provisional amounts, possibly materially, due to, additional guidance, changes in interpretation, and additional analysis and assumptions the Company has made. Any adjustments to the 2018 and 2017 provisional estimates will be reported in income tax expense in the reporting period in which any such adjustments are determined, which will be no later than the fourth quarter of 2018.

*Acquisition*

On March 9, 2018, the Company completed the acquisition of certain net assets and the natural color business of *GlobeNatural*, a natural food and ingredient company based in Lima, Peru. The Company paid \$10.5 million of cash for this acquisition. *GlobeNatural* operations are included in the Color segment. The assets acquired and liabilities assumed were recorded at their estimated fair values as of the acquisition date. The purchase price exceeded the carrying value of the net assets by approximately \$8.4 million. The excess was allocated to intangible assets, principally goodwill. The Company is in the process of quantifying the identifiable intangible assets and anticipates completing this analysis in the third quarter of 2018. During the current quarter, the Company also purchased the assets of a business for an immaterial amount, which is included in the Flavors & Fragrances segment.

*Restructuring*

Between March 2014 and 2017, the Company executed a restructuring plan to eliminate underperforming operations, consolidate manufacturing facilities, and improve efficiencies within the Company. The Company recorded \$20.2 million of restructuring costs in Corporate & Other for the three months ended March 31, 2017. There were no restructuring and other costs incurred in the three months ended March 31, 2018.

*Divestiture*

In the first quarter of 2017, the Company completed the sale of a facility and certain business lines in Strasbourg, France, for \$12.5 million. The Company recognized a non-cash loss of approximately \$11.0 million in Corporate & Other during the three months ended March 31, 2017.

**NON-GAAP FINANCIAL MEASURES**

Within the following tables, the Company reports certain non-GAAP financial measures, including: (1) adjusted operating income, adjusted net earnings, and adjusted diluted EPS from continuing operations (which exclude restructuring and other costs) and (2) percentage changes in revenue, operating income, diluted EPS, adjusted operating income, and adjusted diluted EPS on a local currency basis (which eliminate the effects that result from translating its international operations into U.S. dollars). The other costs in 2017 are for the divestiture related costs discussed under *Divestiture* above. There were no restructuring and other costs incurred in the three months ended March 31, 2018.

The Company has included each of these non-GAAP measures in order to provide additional information regarding our underlying operating results and comparable year-over-year performance. Such information is supplemental to information presented in accordance with GAAP and is not intended to represent a presentation in accordance with GAAP. These non-GAAP measures should not be considered in isolation. Rather, they should be considered together with GAAP measures and the rest of the information included in this report. Management internally reviews each of these non-GAAP measures to evaluate performance on a comparative period-to-period basis and to gain additional insight into underlying operating and performance trends, and the Company believes the information can be beneficial to investors for the same purposes. These non-GAAP measures may not be comparable to similarly titled measures used by other companies.

## SEGMENT INFORMATION

The Company determines its operating segments based on information utilized by the chief operating decision maker to allocate resources and assess performance. Segment performance is evaluated on operating income of the respective business units before restructuring and other costs, which are reported in Corporate & Other, interest expense, and income taxes.

The Company's discussion below regarding its operating segments has been updated to reflect the Company's disaggregation of revenue as summarized in Part I, Item I, Note 4, *Segment Information*, of this report.

### *Flavors & Fragrances*

Flavors & Fragrances segment revenue was \$188.4 million and \$186.9 million for the three months ended March 31, 2018 and 2017, respectively, an increase of approximately 1%. Foreign exchange rates increased segment revenue by approximately 4%. The increase was primarily a result of higher revenue in Fragrances partially offset by lower revenue in Flavors. The higher revenue in Fragrances is primarily a result of favorable volumes, favorable exchange rates, and higher selling prices. The lower revenue in Flavors is primarily a result of lower volumes partially offset by the favorable impact of exchange rates and higher selling prices.

Flavors & Fragrances segment operating income was \$25.3 million and \$28.8 million for the three months ended March 31, 2018 and 2017, respectively, a decrease of approximately 12%. Foreign exchange rates increased segment operating income by approximately 1%. The lower segment operating income was primarily a result of lower operating income in Natural Ingredients and Flavors. The lower operating income in Natural Ingredients was primarily due to higher raw material costs and lower selling prices, partially offset by higher volumes. The lower operating income in Flavors is primarily a result of unfavorable volume and product mix, partially offset by lower manufacturing and other costs, lower raw material costs, and higher selling prices. Segment operating income as a percent of revenue was 13.4% in the current quarter and 15.4% in the prior year's comparable quarter.

### *Color*

Segment revenue for the Color segment was \$147.2 million and \$134.1 million for the three months ended March 31, 2018 and 2017, respectively, an increase of approximately 10%. Foreign exchange rates increased segment revenue by approximately 6%. The increase was primarily a result of higher revenue in Cosmetics and Food & Beverage Colors. The higher revenue in both Cosmetics and Food & Beverage Colors is primarily a result of higher volumes and favorable exchange rates.

Segment operating income for the Color segment was \$33.7 million and \$30.2 million for the three months ended March 31, 2018 and 2017, respectively, an increase of approximately 11%. Foreign exchange rates increased segment operating income by approximately 7%. The higher segment operating income was primarily a result of higher operating income in Cosmetics as a result of favorable volume and product mix and exchange rates partially offset by higher manufacturing & other costs. Segment operating income as a percent of revenue was 22.9% in the current quarter and 22.5% in the prior year's comparable quarter.

### *Asia Pacific*

Segment revenue for the Asia Pacific segment was \$30.3 million and \$29.6 million for the three months ended March 31, 2018 and 2017, respectively, an increase of approximately 2%. Foreign exchange rates increased segment revenue by approximately 4%. The higher segment revenue was primarily due to favorable exchange rates partially offset by lower volumes.

Segment operating income for the Asia Pacific segment was \$4.9 million and \$5.2 million for the three months ended March 31, 2018 and 2017, respectively, a decrease of approximately 5%, primarily due to higher manufacturing and other costs. Foreign exchange rates increased segment operating income by approximately 6%. Segment operating income as a percent of revenue was 16.1% in the current quarter and 17.4% in the prior year's comparable quarter.

### *Corporate & Other*

The Corporate & Other operating loss was \$8.2 million and \$40.1 million for the three months ended March 31, 2018 and 2017, respectively. The lower operating loss was primarily a result of the absence in 2018 of the restructuring and other costs that were incurred in 2017 and lower performance based executive compensation incurred in 2018. Restructuring and other costs were \$31.3 million for the three months ended March 31, 2017. There were no restructuring and other costs incurred in the three months ended March 31, 2018.

## LIQUIDITY AND FINANCIAL CONDITION

### *Financial Condition*

The Company's financial position remains strong. The Company is in compliance with its loan covenants calculated in accordance with applicable agreements as of March 31, 2018. The Company expects its cash flow from operations and its available debt capacity can be used to meet future cash requirements for operations, capital expenditures, dividend payments, acquisitions, and stock repurchases.

### *Cash Flows from Operating Activities*

Net cash provided by operating activities was \$18.3 million and \$31.2 million for the three months ended March 31, 2018 and 2017, respectively. The lower cash provided by operating activities is primarily due to higher working capital balances in the current period. The Company adopted ASU 2016-15, *Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments*, during the current quarter (refer to Note 1, *Accounting Policies*, included in Part I, Item I of this report), and as a result, the Company has reclassified \$9.1 million and \$6.4 million from *Net cash provided by operating activities* to *Net cash (used in) provided by investing activities* for the three months ended March 31, 2018 and 2017, respectively.

### *Cash Flows from Investing Activities*

Net cash used in investing activities was \$13.8 million for the three months ended March 31, 2018, compared to net cash provided by investing activities of \$8.8 million for the three months ended March 31, 2017. Capital expenditures were \$11.1 million and \$10.1 million for the three months ended March 31, 2018 and 2017, respectively. During the three months ended March 31, 2018, the Company acquired one business and the assets of another business for a total of \$11.0 million. During the three months ended March 31, 2017, the Company sold two businesses and a facility and certain business lines for \$12.5 million in proceeds.

### *Cash Flows from Financing Activities*

Net cash used in financing activities was \$9.6 million and \$39.8 million for the three months ended March 31, 2018 and 2017, respectively. The Company repurchased \$72.7 million and \$12.4 million of Company stock for the three months ended March 31, 2018 and 2017, respectively. Net debt increased in the first three months of 2018 by \$80.1 million and decreased by \$13.7 million in the first three months of 2017. For purposes of the cash flow statement, net changes in debt exclude the impact of foreign exchange rates. Dividends of \$14.3 million and \$13.3 million were paid during the three months ended March 31, 2018 and 2017, respectively. Dividends paid were 33 cents per share and 30 cents per share in the first three months of 2018 and 2017, respectively.

## CONTRACTUAL OBLIGATIONS

There have been no material changes in the Company's contractual obligations during the quarter ended March 31, 2018. For additional information about contractual obligations, refer to "Contractual Obligations" under Item 7 of the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

## OFF-BALANCE SHEET ARRANGEMENTS

The Company is engaged in an accounts receivable securitization program with a commitment size of \$60 million, whereby transactions under the program are accounted for as sales of trade receivables in accordance with ASC Topic 860, *Transfers and Servicing*, and removed from the Company's consolidated balance sheet (refer to Note 11, *Accounts Receivable Securitization*, included in Part I, Item I of this report).

## CRITICAL ACCOUNTING POLICIES

During the quarter ended March 31, 2018, the Company adopted ASU 2014-09, *Revenue from Contracts with Customers* (refer to Note 1, *Accounting Policies*, included in Part I, Item I of this report) and updated its accounting policy for revenue recognition. Besides the adoption of this ASU, there have been no material changes in the Company's critical accounting policies during the quarter ended March 31, 2018. For additional information about critical accounting policies, refer to "Critical Accounting Policies" under Item 7 of the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in the Company's exposure to market risk during the quarter ended March 31, 2018. For additional information about market risk refer to Item 7A of the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

### ITEM 4. CONTROLS AND PROCEDURES

**Evaluation of Disclosure Controls and Procedures:** The Company carried out an evaluation, under the supervision and with the participation of management, including the Company's Chairman, President and Chief Executive Officer and its Senior Vice President and Chief Financial Officer, of the effectiveness, as of the end of the period covered by this report, of the design and operation of the disclosure controls and procedures, as defined in Rule 13a-15(e) of the Exchange Act. Based upon that evaluation, the Company's Chairman, President and Chief Executive Officer and its Senior Vice President and Chief Financial Officer have concluded that the disclosure controls and procedures were effective as of the end of the period covered by this report.

**Change in Internal Control Over Financial Reporting:** There has been no change in the Company's internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) during the Company's most recent quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

### FORWARD-LOOKING STATEMENTS

This document contains forward-looking statements that reflect management's current assumptions and estimates of future economic circumstances, industry conditions, Company performance, and financial results. Forward-looking statements include statements in the future tense, statements referring to any period after March 31, 2018, and statements including the terms "expect," "believe," "anticipate", and other similar terms that express expectations as to future events or conditions. The Private Securities Litigation Reform Act of 1995 provides a safe harbor for such forward-looking statements. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, and other factors that could cause actual events to differ materially from those expressed in those statements. A variety of factors could cause the Company's actual results and experience to differ materially from the anticipated results. These factors and assumptions include the pace and nature of new product introductions by the Company and the Company's customers; the Company's ability to successfully implement its growth strategies and restructuring plan; the outcome of the Company's various productivity-improvement and cost-reduction efforts; the effectiveness of the Company's past restructuring activities; changes in costs and availability of raw materials and energy; industry and economic factors related to the Company's domestic and international business; competition from other suppliers of colors, flavors, and fragrances; growth or contraction in markets for products in which the Company competes; terminations and other changes in customer relationships; the costs of compliance, or failure to comply, with laws and regulations applicable to our industries and markets; changing consumer preferences and changing technologies; industry and customer acceptance of price increases; currency exchange rate fluctuations; cost and availability of credit; results of litigation, environmental investigations or other proceedings; complications as a result of existing or future information technology system applications and hardware; the matters discussed under Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2017; and the matters discussed above under Item 2 including the critical accounting policies referenced therein. Except to the extent required by applicable law, the Company does not undertake to publicly update or revise its forward-looking statements even if experience or future changes make it clear that any projected results expressed or implied therein will not be realized.

## PART II. OTHER INFORMATION

## ITEM 1. LEGAL PROCEEDINGS

The Company is subject to various claims and litigation arising in the normal course of business. The Company establishes reserves for claims and proceedings when it is probable that liabilities exist and reasonable estimates of loss can be made. While it is not possible to predict the outcome of these matters, based on our assessment of the facts and circumstances now known, we do not believe that these matters, individually or in the aggregate, will have a material adverse effect on our financial position. However, actual outcomes may be different from those expected and could have a material effect on our results of operations or cash flows in a particular period.

SEC Inquiry

The Company previously disclosed that it received an informal inquiry from the staff of the Commission's Division of Enforcement on October 22, 2015. On April 16, 2018, the Company received confirmation that the staff of the Commission's Division of Enforcement had closed the informal inquiry.

## ITEM 1A. RISK FACTORS

Except as otherwise described below, there were no material changes to the risk factors previously disclosed in Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

## ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table provides the specified information about the repurchases of its common shares by the Company during the first quarter of 2018:

**CERTIFICATION**  
**Pursuant to Rule 13a-14(a) of the Exchange Act**

I, Paul Manning, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Sensient Technologies Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
  - a) all significant deficiencies and material weaknesses in the design or operation of internal controls over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
